

SOMD 2030 WORKFORCE DEVELOPMENT – INTERN PROFILE (2023-2024)

SoMD 2030 is focused on building up the STEM pipeline, increasing career opportunities and expanding partnerships with government, industry and academia. This collaborative effort is funded by the Naval Air Warfare Center Aviation Division (NAWCAD). The Patuxent Partnership (TPP) executes this workforce development initiative via its Partnership Intermediary Agreement (PIA) with NAWCAD. SoMD 2030 funding was awarded in Oct 2022 due to continued efforts focused on workforce development by the Southern MD Navy Alliance.

This initiative connects talented college students with paid internships in southern MD. The 8-week summer college internship program (June 10 – Aug 2, 2024) will place students with local industry, government, and non-profits – leading to further education and career opportunities throughout southern MD - in Calvert, Charles, and St. Mary's counties.

The SoMD 2030 summer college internship program is seeking college students who are rising sophomores - seniors that are pursuing a Bachelor's degree in Computer Science, Engineering, Mathematics, Physics, Chemistry, Software Engineering, Finance, Accounting, Communications, Psychology or a related field at an accredited undergraduate institution. Please answer the survey below. **Complete application and resumes due: Friday, December 8, 2023.**
