

**ROBERT M. NEWTON**  
Chief Executive Officer  
*NCE Incorporated*

Bob leads an advanced technology and engineering company specializing in aerospace and defense systems, program management and capability development. The company's focus is executing innovation with flight operations and Directed Energy weapons in serving the US government, commercial, domestic, and international customers.

Bob brings a broad range of expertise and experience to the defense and technology sectors with over 15-years of corporate performance and 26 years of service in the US Air Force. His perspective comes from a solid technical education that includes a Bachelor of Science degree from The Ohio State University and a master's degree from Georgia Institute of Technology in Aerospace Engineering. During his Air Force career, he also completed flight, test pilot, acquisition program management, and the professional military service schools.

Building upon his education is a broad range of practical experience that began with F-16 multirole fighter operations and involved over 40 years in systems and capabilities development. Specific acquisition related responsibilities included F-16 performance / flying qualities / avionics / sensors / weapons flight test and airworthiness certification, F-22 program management, Air Force Material Command headquarters, Pentagon Air Staff, Special Ops, and industry. He has commanded flying units and is a veteran of Operations ENDURING FREEDOM and IRAQI FREEDOM.

As a capability developer and test pilot with over 6000 hours in over 90 types of aircraft, Bob remains engaged on a wide range of scientific and technical initiatives affecting aviation, the Department of Defense and high-tech industry. He is also a public advocate for the defense industrial base and innovation issues with published articles on many sites.
